Intellectual Property Law School & Master Classes

The IP Law School is a unique initiative in Asia offering a taught programme in international Intellectual Property Law and its relevance for global, European and Asian economic development and innovation policy.

The IP Law School is extremely suited for trainee lawyers, Intellectual Property professionals with an economic or policy background, and master students in Intellectual Property wishing to enhance their skills at post-academic level.

Starting from the basics of the Paris and Berne conventions, the course covers the development of Intellectual Property Law all the way to the WTO TRIPS Agreement and the WIPO Copyright treaties. Attention is also devoted to regional arrangements, such as the European Patent Convention, and other new international and national initiatives. From a policy perspective free trade agreements and bilateral investment arrangements covering Intellectual Property, as well as ongoing negotiations in the area of protection of traditional knowledge will be covered.

Classes are offered in an intensive Socratic format in the course of one week by experts in the field Dr.Christopher Heath, of the Boards of Appeal of the European Patent Office, Prof. Anselm Kamperman Sanders, of Maastricht University, and local guest speakers who offer a Chinese perspective on Intellectual Property Law.

This challenging programme also expects students to jointly prepare and argue several moot cases in a friendly, yet competitive atmosphere, providing a unique insight in the way in which participants from various jurisdictions approach international and domestic legal problems.

The IP Law School offers an excellent opportunity to prepare or refresh one's knowledge before the 8th Annual IP Seminar and the subsequent IP Master Classes.

The IP Master Classes offer the opportunity to learn from an expert in a particular sub-discipline of Intellectual Property Law. Whereas the IP Master Classes follow the same Socratic format of the IP Law School, including the opportunity to argue mock trials, they are much more topical and are taught jointly by the regular IP Law School team and other expert speakers from the IP Seminar. This means that IP Master Classes form a seamless companion programme to the annual Intellectual Property Seminar.

In all, the IP Law School, the IP Seminar and the IP Master Classes form an attractive package. You can furthermore take the entire programme at a special rate, or select a combination of modules that suites your needs.

The Intellectual Property Law School 18 - 22 June 2007

Venue: Macau Cultural Centre
The Intellectual Property Law School is taught and mock trials fought between 09:15 and 18:00.
